

## **YAMAHA WORKSHOP ASSEMBLY**

The whole of St Hilary's was recently treated to a special assembly, when we were visited by talented musicians from the new Yamaha Music School and one played especially for us.

We joined in some rhythm based activities including a version of Queen's "We will rock you". We watched as three brave volunteers demonstrated different types of electric guitar using plectrums to pick out individual chord notes while others were in groups joining in time. While having tremendous fun, we were learning all about the parts of an electric guitar and the different ways it can be played.
